

## Enel X Way JuiceBox 48

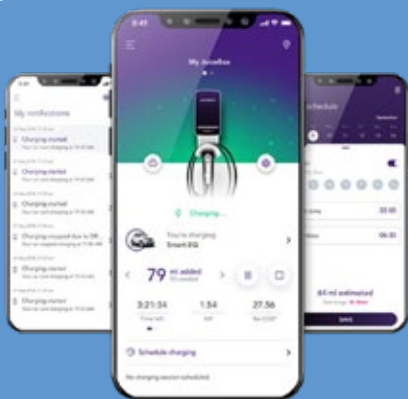

The JuiceBox 48 is a 48-amp smart EV charging station with 9x faster charge compared to a level 1 charger. It is universally compatible with all EVs including Teslas with a commonly used adapter.

It offers flexible charge times so you can charge when rates are at their lowest. The JuiceBox 48 is NEMA-4X, UL and ENERGY STAR-certified and comes with a 3-year warranty. Pair the JuiceBox 48 with our JuicePass app to control your unit wirelessly and monitor charge rates from anywhere. JuiceBox 48 is compatible with smart home devices such as Amazon Alexa/ Echo and Google Home devices.
