

Hunter Douglas Duette® Honeycomb Shades with PowerView® Automation

HunterDouglas

Hunter Douglas PowerView® automated shades are a great solution to help control energy costs by responding to weather conditions and dependency on artificial light. PowerView® Automation delivers a new, intuitive, high performance experience.

For added energy savings, combine with Duette® Honeycomb Shades which are constructed with an innovative cellular design of insulating layers. Simply control the temperature and comfort of your home by synchronizing your Hunter Douglas automated window treatments. Power your Duette® Honeycomb Shades with a seamless, integrated look and an environmentally friendly rechargeable battery.
