

## Swidget Smart Controls

# SWIDGET

---

**Swidget manufactures the only future-proof, modular smart devices on the market.**

The patented design separates the power component from the modular smart control Insert allowing users to easily swap functionality based on their needs and upgrade as new technologies emerge without having to install a new device.

Swidget offers a full suite of smart-ready outlets and switches and the most complete offering of modular, sensing technology including inserts that monitor occupancy, air quality, energy, humidity, and more.

From energy management to smart ventilation, the possibilities to monitor, assess and optimize your environment with Swidget are endless.

### **Product Designers:**

Chris Adamson, Co-Founder and COO

Lowell Misener, Co-Founder and CTO

## Product Specifications

- **Connectivity Protocols:** Wi-Fi, Zigbee, Z-Wave
- **Platform Compatibility:** Amazon Alexa, Google Home, IFTTT, Control 4
- **Warranty:** 5 year limited replacement warranty for devices and 2 year limited replacement warranty for inserts
- **Energy Management Features:** Occupancy sensing; “eco” or low power mode; most Swidget devices monitor real-time power consumption. These energy use insights can be used to create automations and alerts.
- **Load Management:** Swidget can receive and respond to Time of Use rates and Demand Response Request if the utility supports IFTTT

Available now from Swidget, Amazon, Panasonic, and Tresco Lighting.
