

Wallbox Pulsar Plus

Pulsar Plus (40A and 48A) is Wallbox's best-selling home charger worldwide and is compatible with all EVs.

Features include flexible amperage setting, Bluetooth and Wi-Fi connectivity, charge scheduling, power sharing, the myWallbox app, and voice control via Amazon Alexa and Google Home. Pulsar Plus comes standard with Wallbox's proprietary energy management solutions, including Power Sharing, Power Boost, and Eco-Smart to offer users increased control and flexibility over their charging. Power Sharing allows two or more Pulsar Plus chargers (up to 25) to share the same electrical circuit, potentially saving thousands of dollars in installation costs.

Product Specifications

- **Max Nameplate Output Current (A):** 48A
- **Input Voltage (V):** 208v- 240v
- **No Vehicle Mode Input Power (W):** 4.3W
- **Connectivity Protocols:** Bluetooth, Bluetooth Low Energy (BLE), Wi-Fi, OCPP
- **Platform Compatibility:** Amazon Alexa, Google Home
